## SECURITY CCTV

A CCTV (closed-circuit television) system allows the use of video cameras to monitor the interior and exterior of a property, transmitting the signal to a monitor or set of monitors. Aside from the obvious advantage of being able to monitor your premises, here are the benefits of using a CCTV system:

- ❖ DETER CRIMINAL ACTIVITY
- ❖ PEACE OF MIND
- ❖ COST-EFFECTIVE

## BIOMETRIC DEVICES

**Time Attendance Systems** are used to track and monitor when employees start and stop work. A time and attendance system enables an employer to monitor their employees working hours and late arrivals, early departures, time taken on breaks and absenteeism.

**Access Control System** provides security by giving flexible control over who is allowed to enter your premises. Access control system electronic door control using a card or a magnetic stripe which can be accessed by swiping through a reader on the door. Most commonly used for Homes & Offices for better security.

## NETWORKING SOLUTIONS AND MANAGED WIFI

ADVANCED PERFORMANCE FOR THE FUTURE

Standard	Performance
802.11AC	UP TO 5X FASTER
802.11N	Baseline

A Local Area Network (LAN) is a computer network covering a small local area, like a home, office or small group of buildings.

Express Tech brings you a wide range of LAN services expanding the capability of desktop computers. We create a safe and reliable network environment for your home / office.

Managed WiFi provides WiFi internet access for guests, residents and employees throughout a property. The design typically include devices such as wireless controllers, wireless access points, switches and extensive cabling.
